

# Completing an Investigation Report using the APX SmartCapture App

1

From the Home View of the Investigations Module, open the desired investigation record.

**Tip: You can search for and open an investigation using the List or Map modes of the Home View, or by using the Search bar.**

2

Fill out the investigation record as required. This could include using text fields, time fields, auto-calculation fields, narratives, images and image mark-up, and more. Select **Save** to save any changes.
