Comments

4 Select **Annotate**.

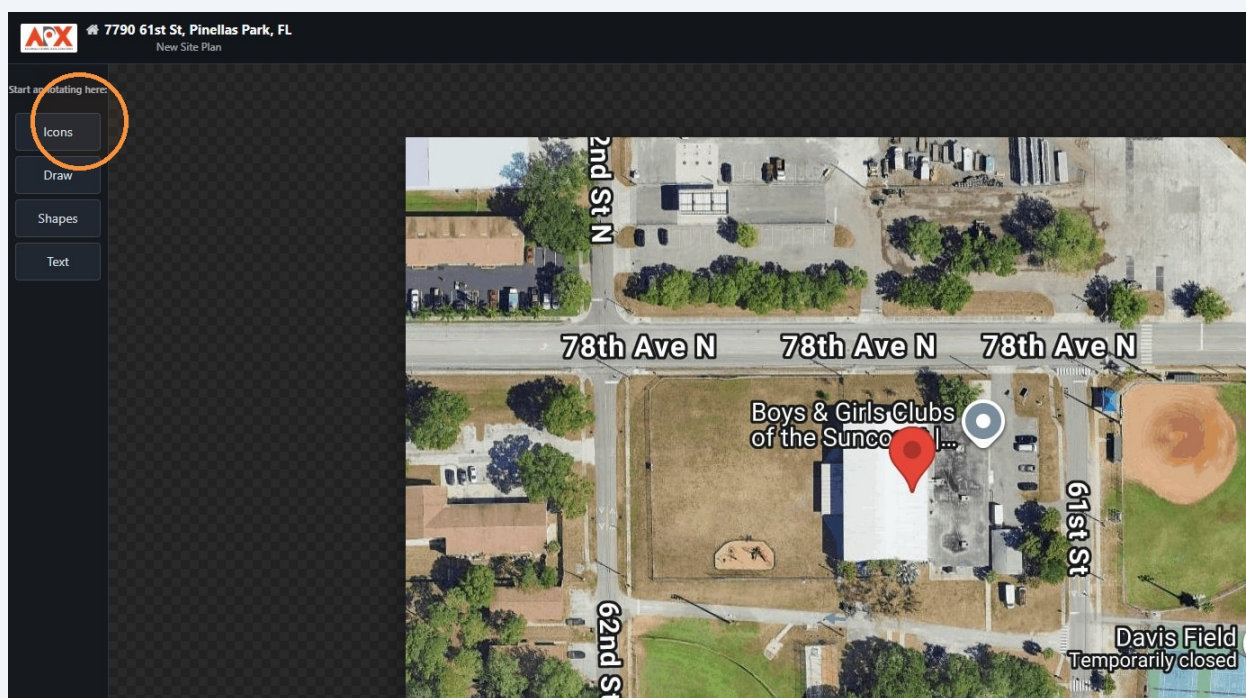

5 The annotation mode will open. Options available to users are Icons, Draw, Shapes, and Text.

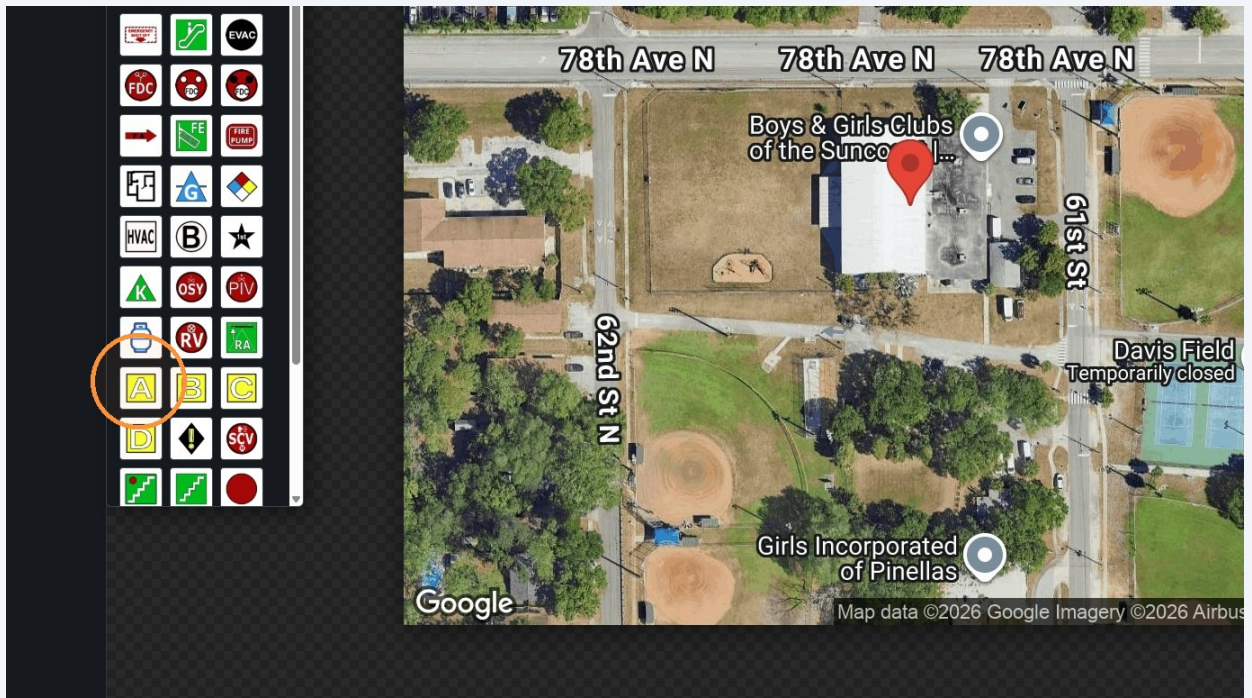

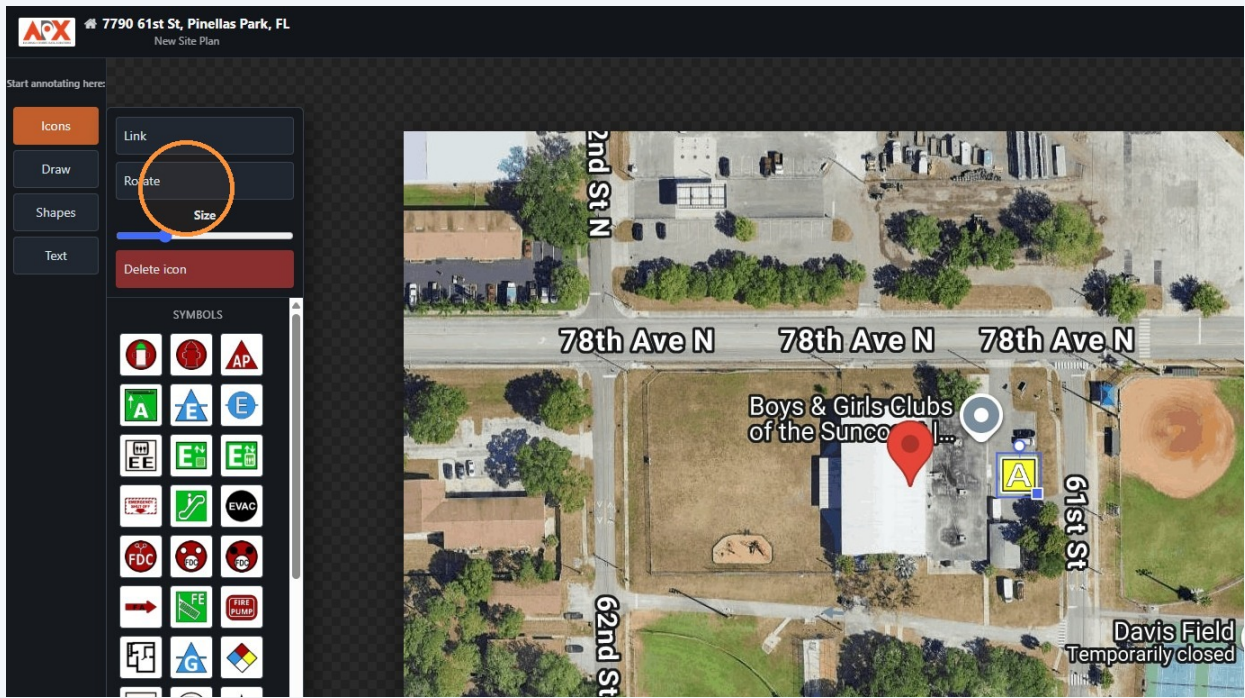

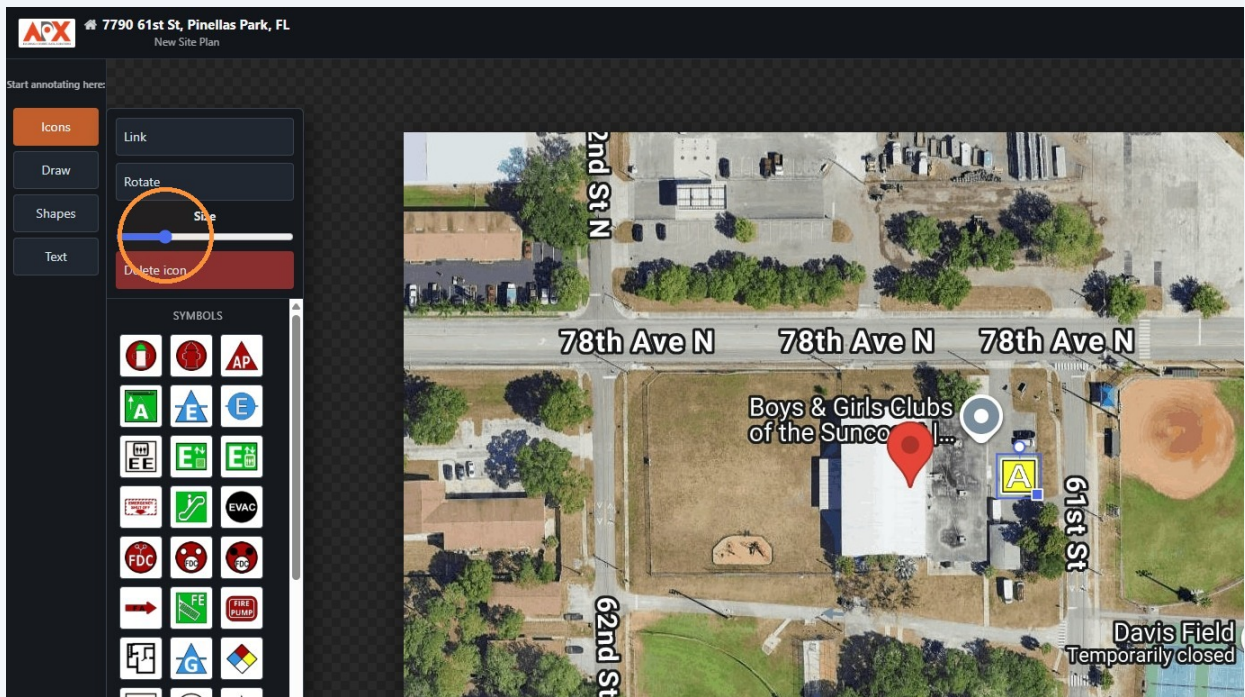

6

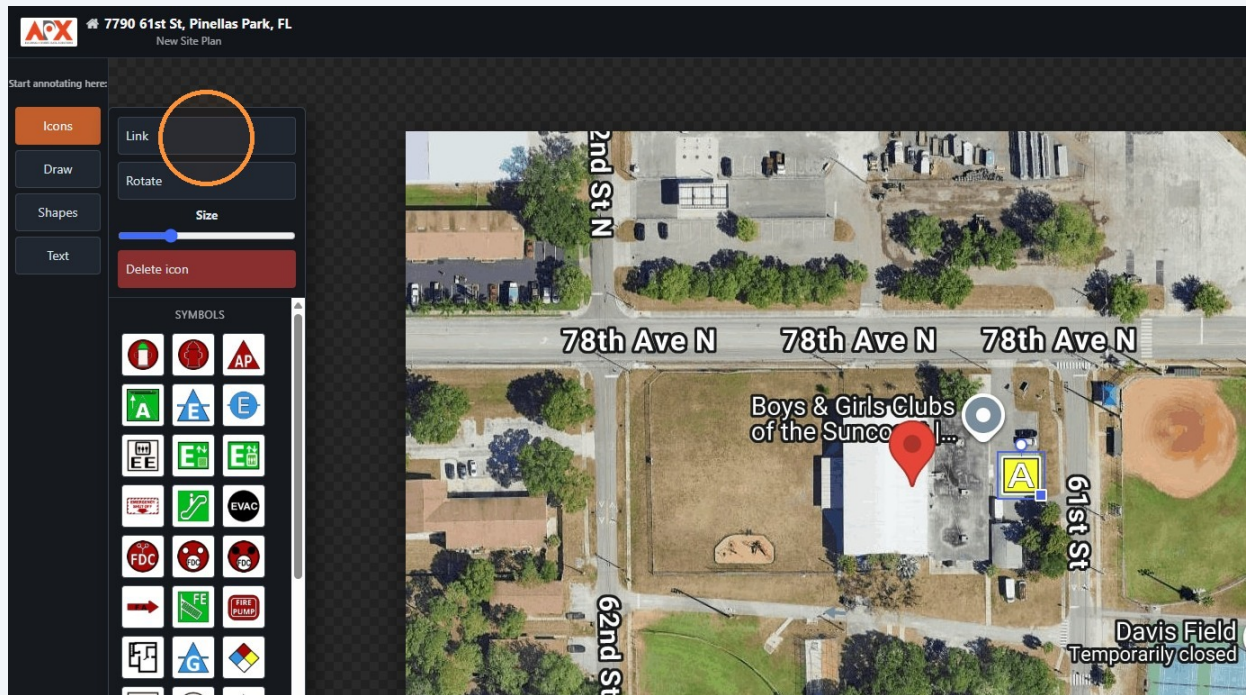

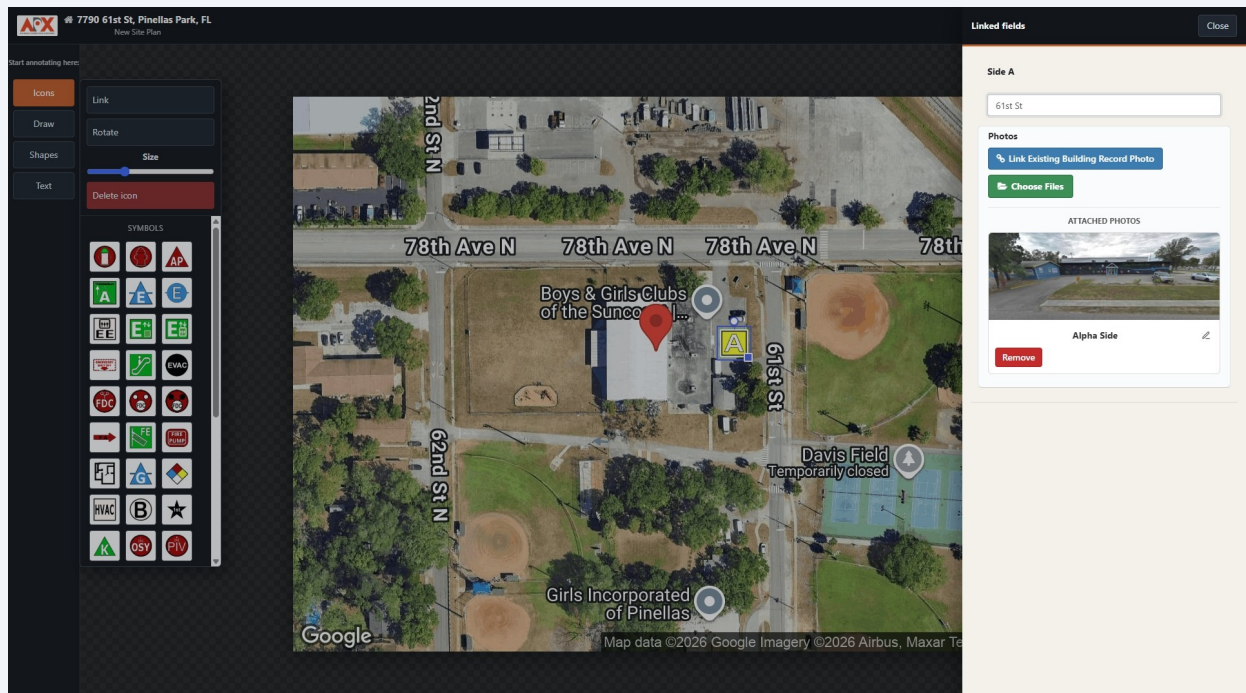

To add an icon to an image, users can do the following:

1. Select **Icons**.
2. Select an icon from the list.
3. Click (tap) and drag on a location on the image to add the selected icon. The icon can be resized during initial placement, or later.
4. To rotate an icon, select **Rotate** from the controls located above the icon list.
5. Use the **Size** slider to edit the size of a selected icon.
6. To link the icon to a preplan field, select **Link**. Any linked fields will be displayed, allowing users to enter relevant information tied to the icon.

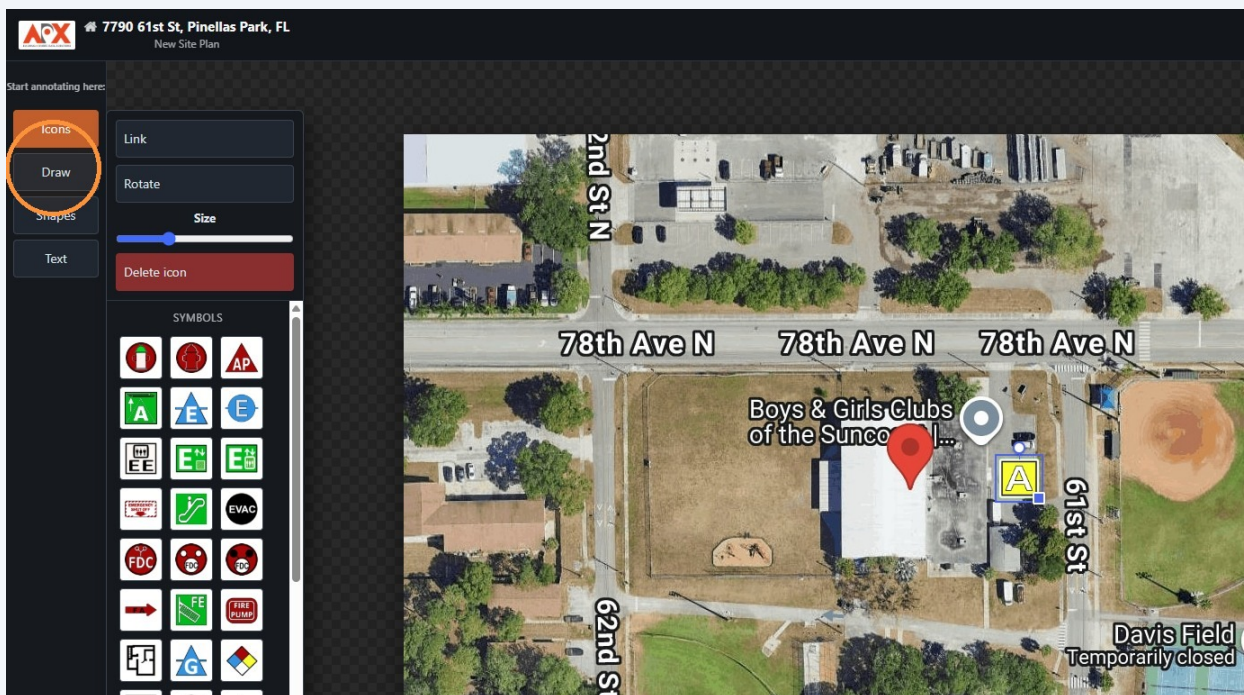

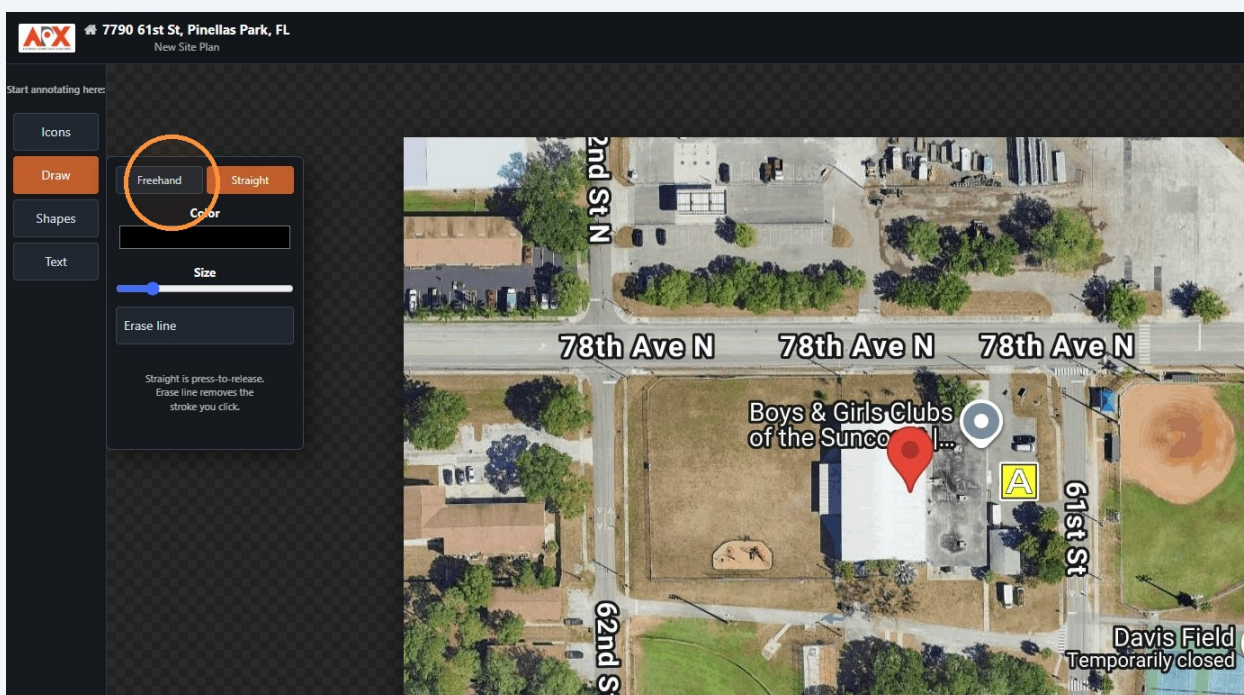

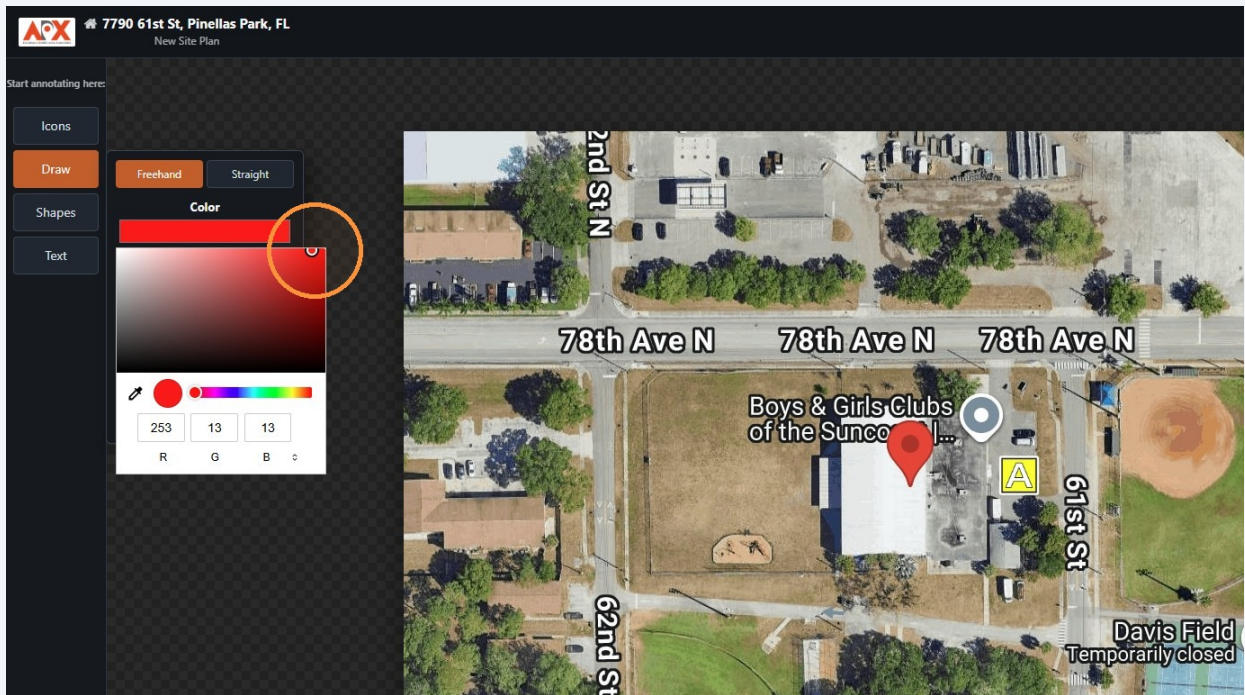

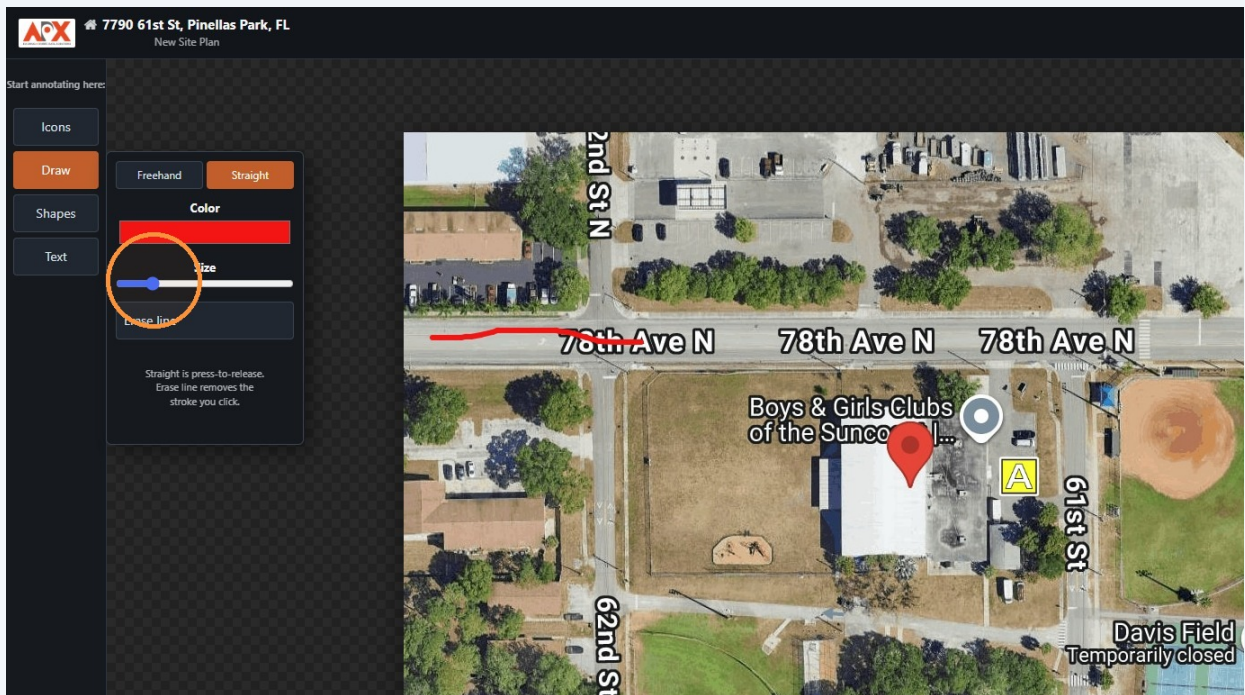

If an icon isn't linked to any fields, it will display a message indicating "No Linked Fields" when **Link** is selected. Icon linkages can be set up through APX configuration.

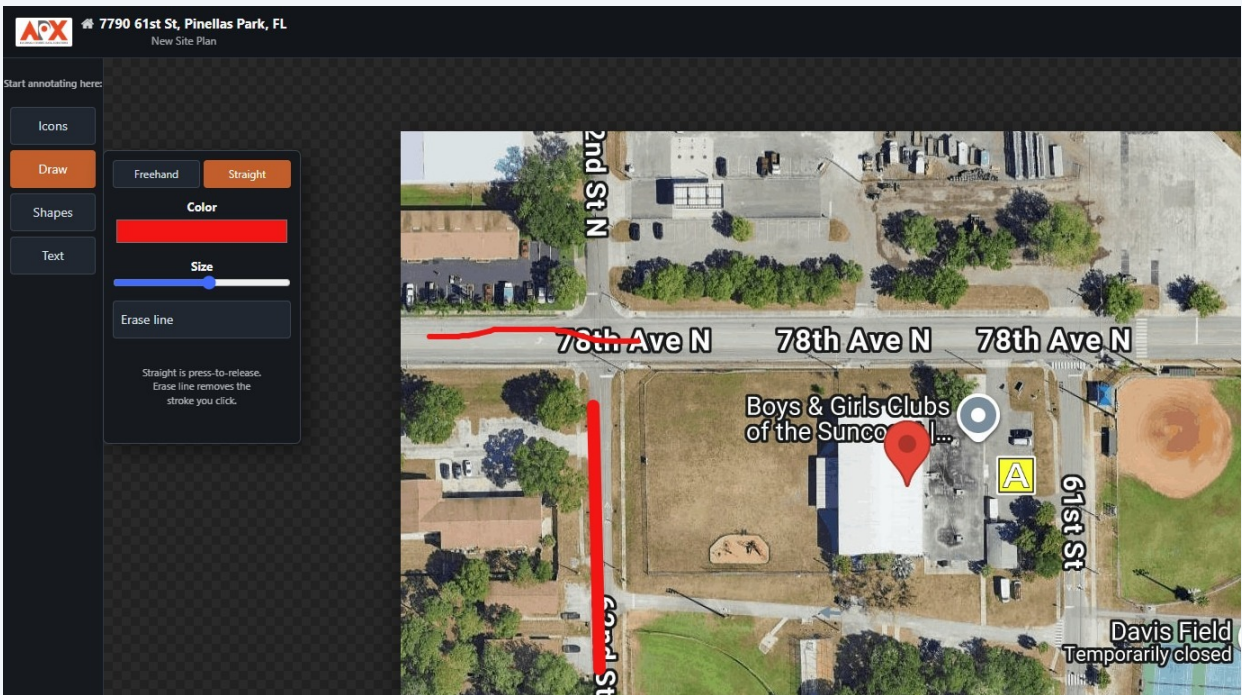

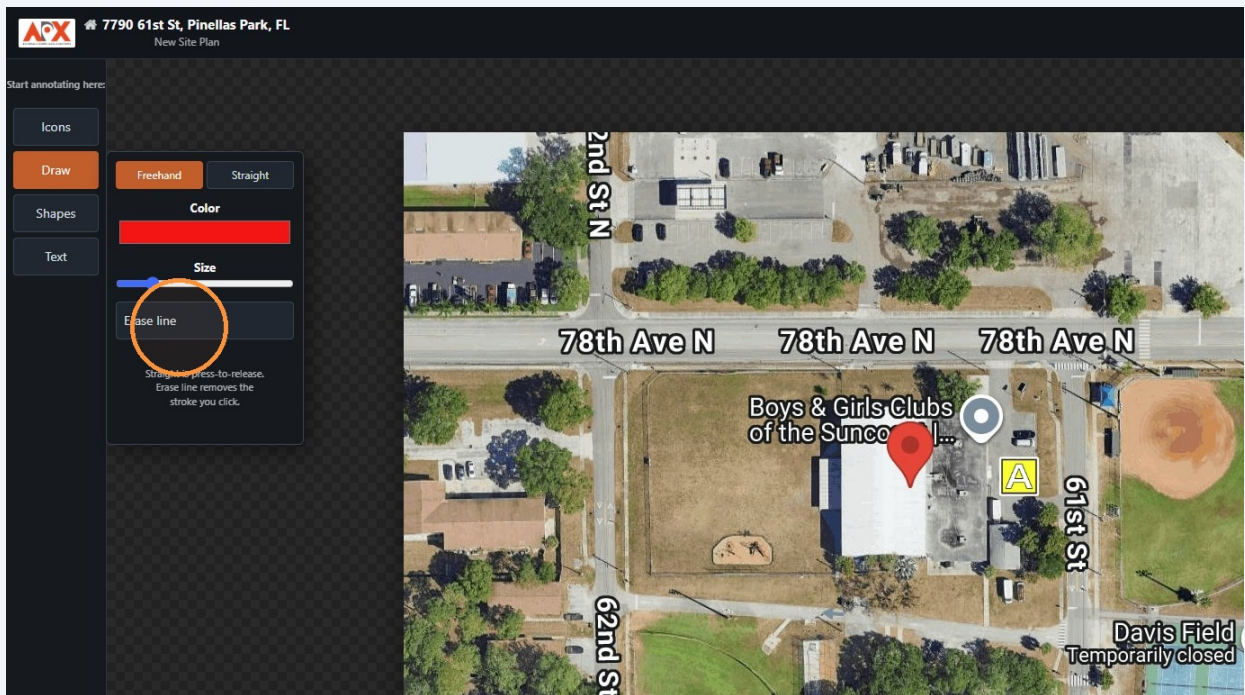

7

To draw on an image, users can do the following:

1. Select **Draw**.
2. Select Freehand or Straight to toggle between modes
3. Use the color selection tool to set a color
4. Use the Size selection tool to set a line size
5. Click (tap) and drag to add a drawing
6. To erase a line, select **Erase Line** and then the desired line

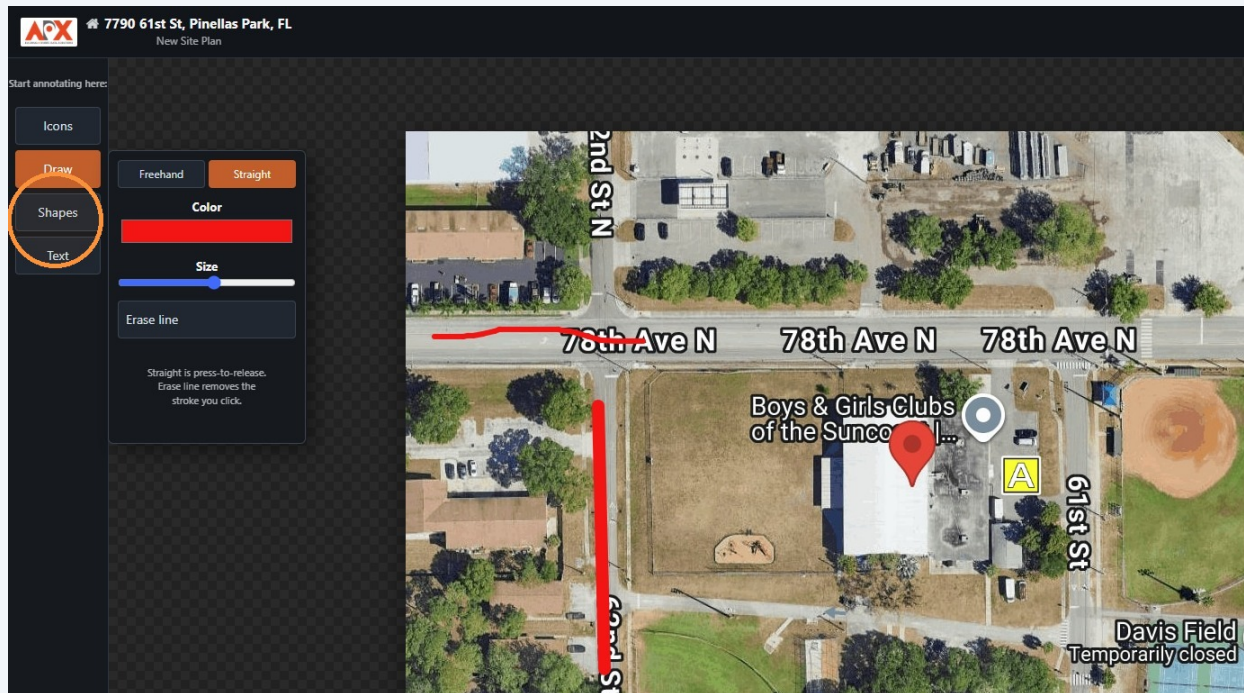

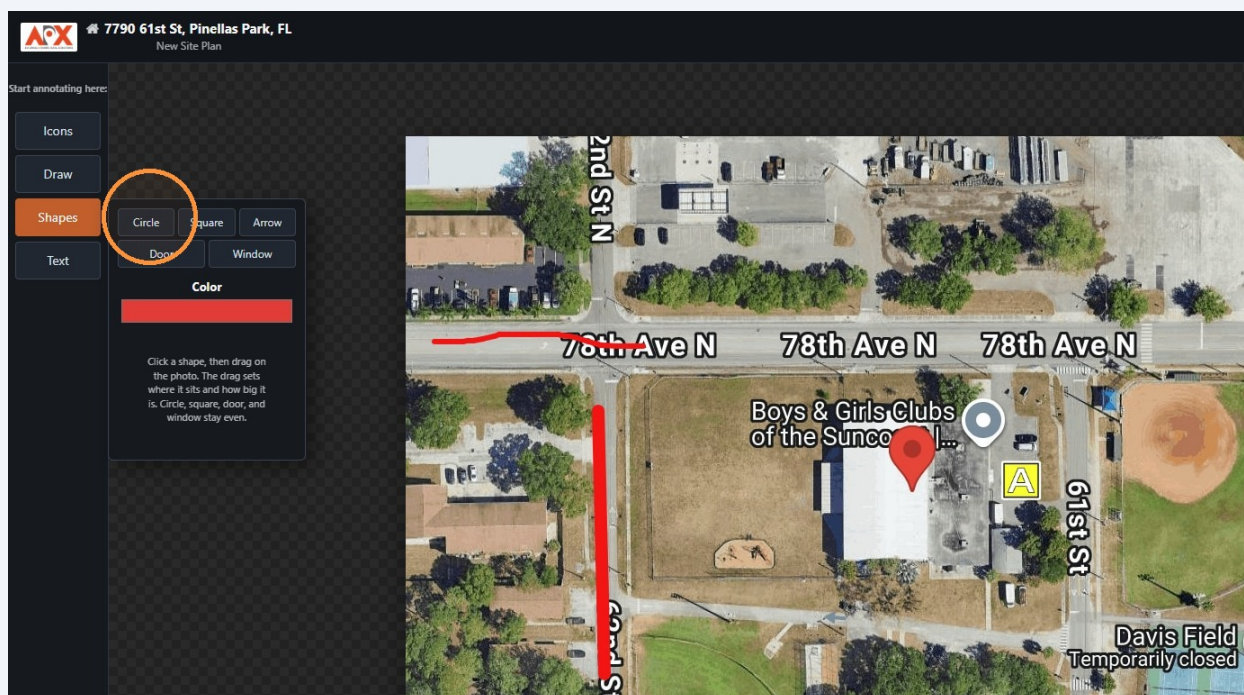

8

To add a shape to an image, users can do the following:

1. Select **Shapes**
2. Select a shape type
3. Select a shape color
4. Click (tap) and drag to place and size the shape
5. Select **Delete Shape** to delete the selected shape

Text

Circle Square Arrow
Door Window
Color
Delete shape
Click a shape, then drag on the photo. The drag sets where it sits and how big it is. Circle, square, door, and window stay even.

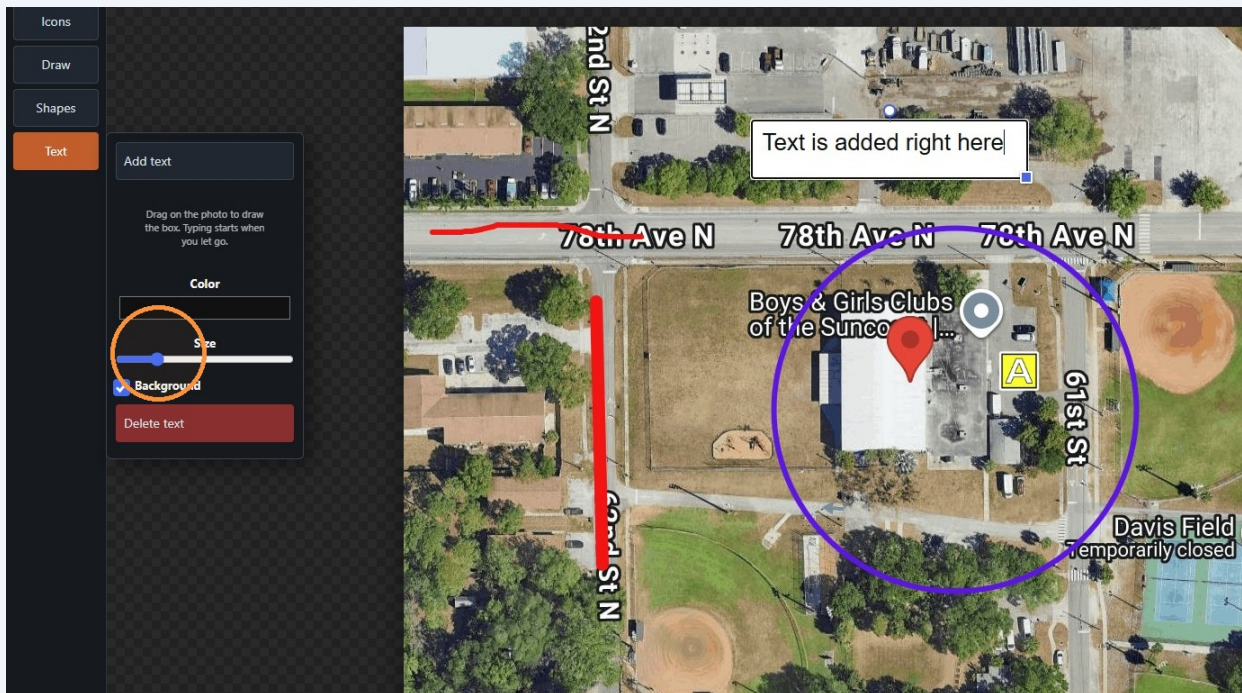

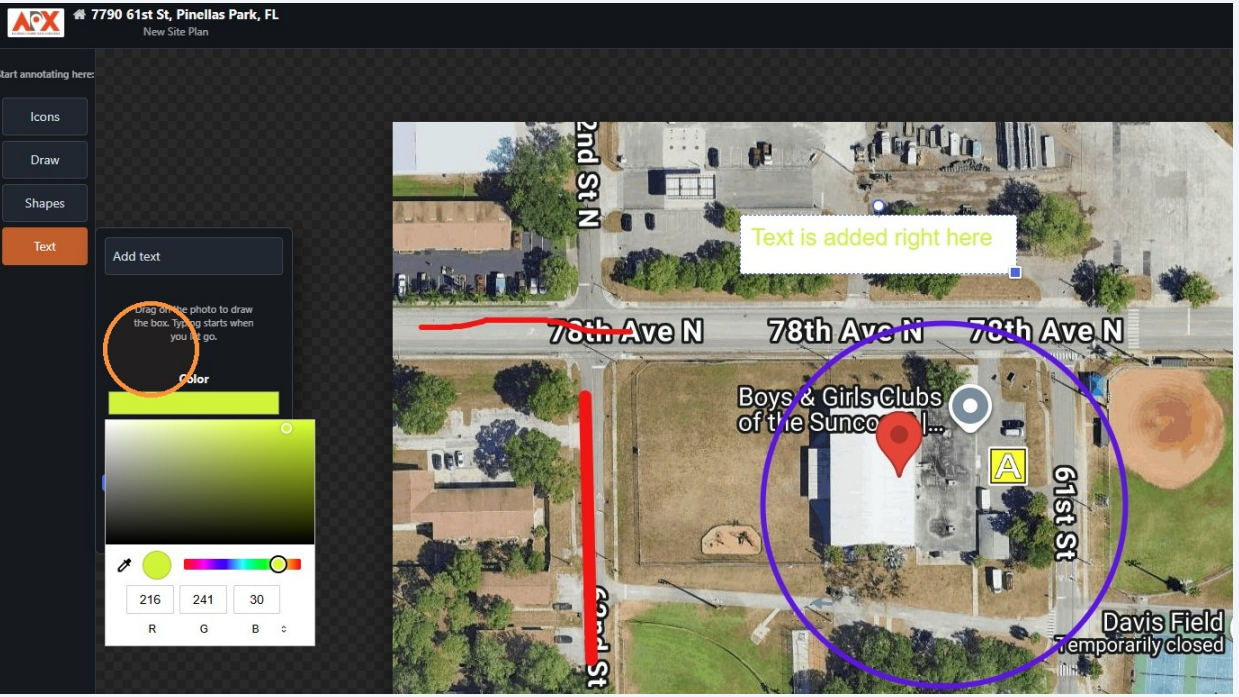

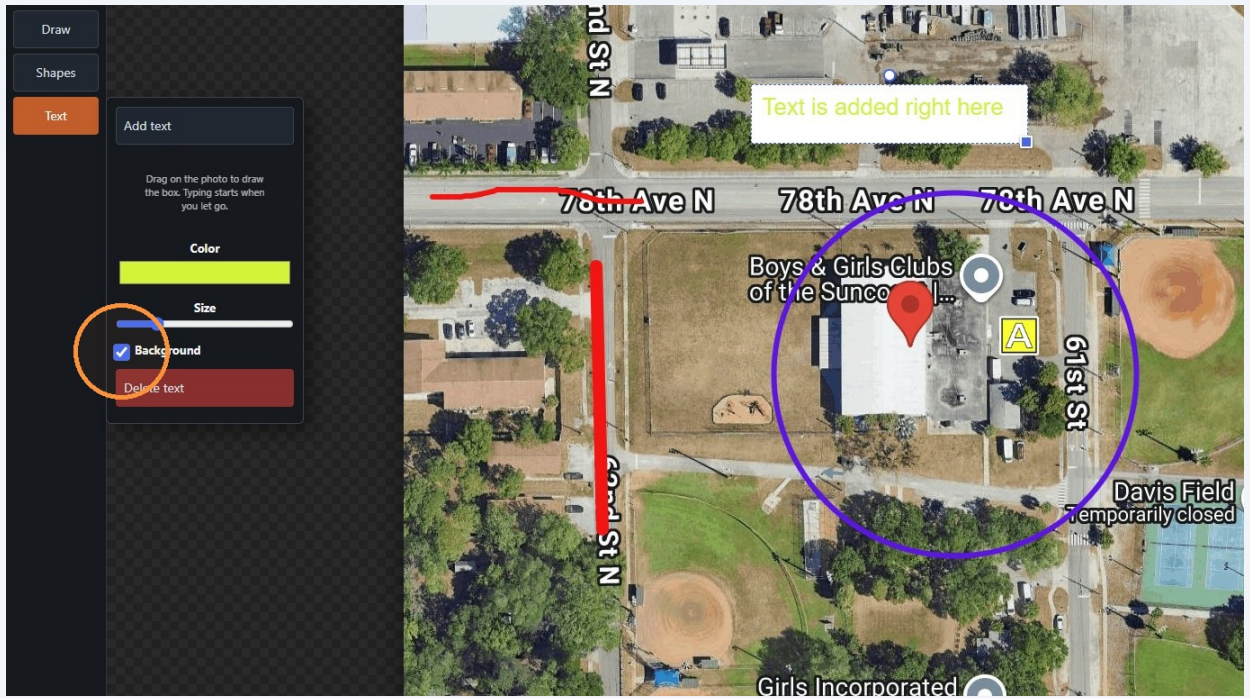

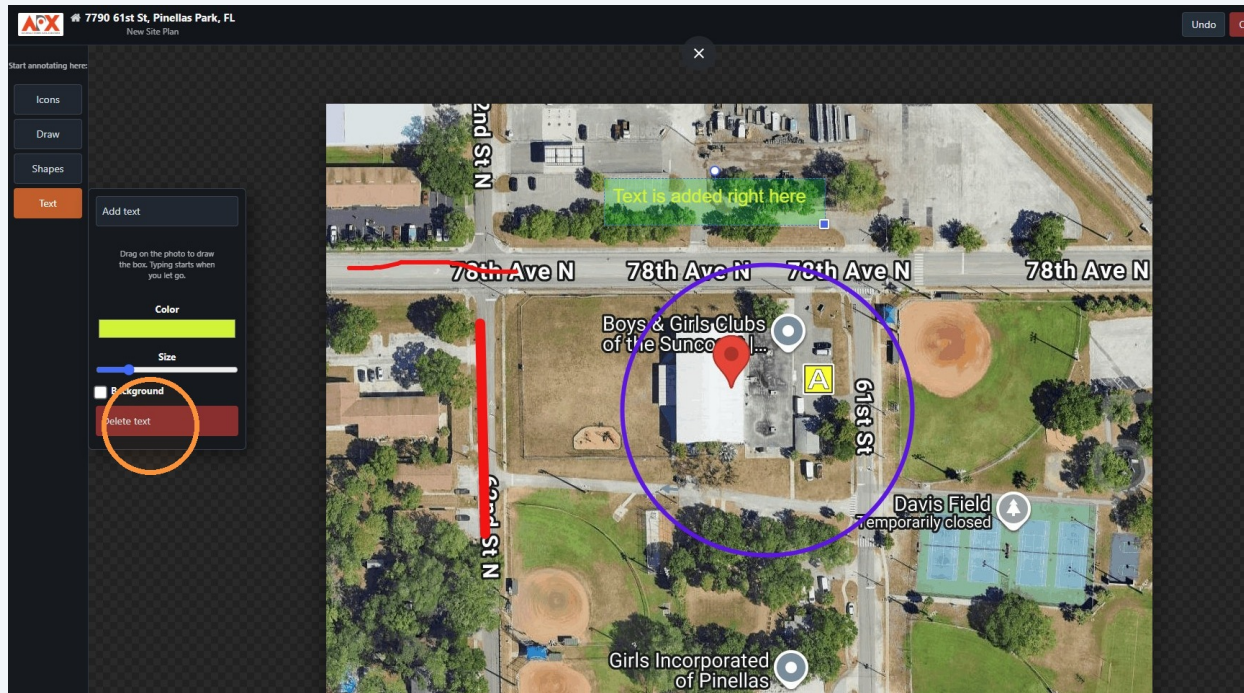

9

To add text to an image, users can do the following:

1. Select **Text**
2. Select **Add text**
3. Click (tap) and drag on the image to add a text box
4. Click (tap) in the text box and type to add text.
5. Select text color
6. Select text size
7. Toggle the background on and off
8. Delete the text box by selecting **Delete text**

10 Select **Save** to save changes to the image.
